# NATURE'S RHYTHM

**There is something incredible about the natural rhythms of the Earth. From ocean tides to the change of seasons, the natural environment is always in motion...always changing.**

**How fitting a theme for this year's performances as our dancers, too, are always in motion... always growing and evolving.**

**DCDC families and friends, we hope you enjoy the show and have a wonderful summer!**

**Miss Desiree and Miss Kristin**
